### About Remy Electricals India Limited

Remy Electricals India Limited ( REIL ), earlier known as Delco Remy Electricals India Limited and formerly as Sahney Paris Rhone Ltd., was set up in 1979 with French Technology to manufacture Electrical products for Automotive Original Equipment Manufacturers. The Joint Venture with Remy International, formerly Delco Remy America ( DRA ), was in response to the growing need for world class expertise and technology in India.

### Product Technology

Remy Electricals India Limited has complete access to Remy International technology and has their support in all areas of Design, Manufacturing Engineering, Quality Assurance, Product Evaluation and Validation. All products are manufactured as per Remy International Specifications and sold only after duly validated and approved by Remy International.
